

## SUMMARY

I am a dedicated software developer with a profound understanding of the software development life cycle. I am proficient in Front end & expertise in backend development. I stay updated of the latest trends & advancements in software development technologies, ensuring that my work remains at the forefront of innovation.

## EDUCATION

### Master of Computer Science

Savitribai Phule Pune University, Pune  
2021 – 2023

### Bachelor of Computer Science

Savitribai Phule Pune University, Pune  
2018 – 2021

## SKILLS

- Programming Languages: Core Java, Java (J2EE, JDK 1.8), JavaScript (ES6), Python.
- Frameworks: Spring (Boot, Core, MVC), Spring Data JPA, Microservices, Hibernate.
- Technologies: REST APIs, SDLC Model, Axios, or Async/Await.
- DataBases: MySQL, PostgreSQL, MongoDB.
- Version Control: Git and GitHub.
- Libraries: React Js, Bootstrap 5.3.3.
- Web Technologies: HTML5, CSS3 (Grid/Flexbox),
- Build Tools: Eclipse IDE, Maven, Github, Spring Tool Suite, React Context.
- Operating System: Windows 10, Command Line Interface (CLI) & Basic Linux commands.

## CERTIFICATIONS

- Full Stack Java Developer- Giris Tech Hub

## PROFESSIONAL EXPERIENCE

### Junior Software Developer

Creazione Software | June 2024 – Present

- Developed and maintained a fully functional Mess Management System, leveraging Java, Spring MVC, and JDBC to handle meal orders, billing, and user management.
- Led the development of both the front-end and back-end components of the Mess Management System, utilizing Java, Spring MVC, and ReactJS for front-end development.
- Worked alongside senior developers to identify performance bottlenecks in the Mess Management System and implemented optimizations to improve load times & database query efficiency.

### Java Developer (Internship)

SGMS Infotech LLP | February 2023 – July 2023

- Actively contributed to key projects, improving application efficiency user experience. Enhanced skills in problem-solving, debugging, and writing clean, maintainable code.
- I've built UI components also worked on styling elements.
- Prepared and distributed reports, presentations, and tested manually for performance optimization.

## PROJECT

### Mess Management System

Creazione Software | June:2024 – Present  
(Live:<https://mealndserv.in/>)

- Understand requirement and planned.
- Designed the user interface (UI) for different user roles (Administrator, Worker) using front end technologies such as HTML, CSS, and JavaScript, Bootstrap. Managed backend services using suitable programming languages Spring MVC, Spring JDBC, JSP also used session for security.
- Implemented the database(MySQL) Queries using appropriate database management systems (Joins, Trigger) for efficient data retrieval and storage, and testing manually.
- Stay updated with the latest technologies and best practices in web development, security.
